Education

California Institute of Technology Pasadena, CA
PhD in Chemistry June 2024

- Advisor: John Eiler
- Committee: Geoff Blake, Brian Stoltz, & Rudy Marcus
- Thesis: Exploring Nature's Fingerprints with Isotopic Distributions

University of Chicago Chicago, IL
B.S. with Honors in Chemistry June 2018

- Advisor: Steven Sibener
- Phi Beta Kappa

Professional Experience

2025-Present	**Postdoctoral Scholar,** Civil and Environmental Engineering, Northwestern University
2024-2025	**Staff Scientist (Remote)**, Geological and Planetary Sciences, Caltech
2024	**Postdoctoral Scholar**, Geological and Planetary Sciences, Caltech
2018-2024	**Graduate Researcher**, Chemistry and Chemical Engineering, Caltech
2017	**Undergraduate Researcher**, Chemical Engineering, Technion – Israel Institute of Tech.
2015-2018	**Undergraduate Researcher**, Chemistry, University of Chicago
2015	**University of Chicago Mathematics REU**, Mathematics, University of Chicago

Grants and Awards

2024	**Merkin Innovation Seed Grant:** *Natural Abundance Stable Isotopes of Metabolites for Cancer Diagnosis* (non-PI)	*$100,000*
2021	**Distinguished Alumnus: Lewisburg Area High School**	-
2017	**Norman H. Nachtrieb Memorial Award for Undergraduate Studies in Chemistry**	*$1,500*

Peer-Reviewed Publications

[1] **Csernica, T.,** Eiler, J. M., and Sessions, A. L. "Site-specific, Multi-Isotope Characterization of DDT Isolated from Sediment Samples." *Marine Pollution Bulletin.* **2026.**

Other Publications

[1] **Csernica, T., "**Extinction in single and multi-type branching processes." For University of Chicago Mathematics REU, **2015.**

Presentations

Invited Oral Presentations

[1] **Inaugural International Orbitrap-IRMS Users Meeting.** Goldschmidt Conference. **2025.** *Declined*

[2] **ThermoFisher Orbitrap Workshop,** American Geophysical Union Conference. "Data Quality Tests for Orbitrap-IRMS Data, Including Lessons from the 100 Isotopologue Challenge." **2023**.

[3] **ThermoFisher Orbitrap Workshop,** Orbitrap Isotope Users Meeting. "Expanding the Orbitrap-IRMS Frontier." **2023**.

[4] **Invited Talk,** American Society for Mass Spectrometry**. "**Mapping the Isotope Anatomies of Organic Molecules at Natural Abundance & Beyond". **2022**.

[5] **Invited Talk,** Yuk Yung Lunch Seminar. "Primitive Genetics and the Origin of Life." **2020.**

Oral Presentations

[1] **Northwestern Civil and Architectural Engineering Seminar.** "Getting the Most From AI in Your Research." *With Jiaxing Wang.* **2026**.

[2] **Chemical Forensics International Working Group.** "Isotopic Characterization of Sarin Precursors via Orbitrap Mass Spectrometry." **2026**.

[3] **Center for Synthetic Biology REU, Northwestern**. "Getting Started With AI Tools." **2026**.

[4] **American Chemical Society**. "Orbitrap Mass Spectrometry for Stable Isotope Forensics: A Case Study of Sarin Precursors." **2024**.

[5] **International Symposium on Isotopologues**. "High-Dimensional Isotomics: Observation and Interpretation of Over 100 Isotopic Constraints on Methionine." **2022**.

Poster Presentations

[1] **Goldschmidt Virtual**. "Reconstructing Extraterrestrial Organic Synthesis via Site-Specific Isotopic Measurements. **2021**.

[2] **Simons Collaboration on the Origins of Life Annual Meeting, Virtual**. "Isotopic Characterization of Nucleobases from a Possible Extraterrestrial Reaction Network. **2020**.

[3] **Gordon Conference on the Origin of Life**. "Site-specific Isotopic Fingerprinting of an Abiotically Plausible Adenine Synthesis. **2020**.

Teaching & Mentoring Experience

2026	Mentor, Center for Synthetic Biology REU	Northwestern
2019	Chemical Synthesis and Characterization for Chemical Engineering, TA	Caltech
2018-2019	General Chemistry, TA	Caltech

Teaching Workshops

Northwestern University Practicum: The Science of How Students Learn Spring 2026
